Hamanaka's Unique Aclaine Needle Felting Material

Hamanaka's Aclaine is produced in-house using special acrylic fiber and extensive experience gathered from years of yarn-making.

Utility Model
Registration
Pending

1. High-quality, proprietary acrylic fiber designed specifically for needle felting.
2. Extremely fast felting – halves the felting time required.*Varies by person.
3. Incredibly cohesive and leaves a beautifully smooth surface.
4. Attractive colors borne out of our superior coloring process, only possible with acrylics.

Aclaine—ideal for those just beginning with needle felting

Fast

Aclaine is often referred to as a material that felts together easily and is easy to work with. Even beginners have no problems with Aclaine, ensuring a stress-free experience.

Simple

The fast felting nature of Aclaine, requires very little effort, making Aclaine perfect for children and the elderly.

Unique eco-scrubbers

Green

The microscopic grooves on the surface of the fibers make it possible to clean without detergents.

Unique squishy softness

Fun

The texture of the fibers allows users to make creations with a uniquely soft elasticity.

Did you know that Hamanaka and acrylic have a storied history?

Hamanaka Bonny wool—made of 100% acrylic—has been a best-seller for its high quality since 1963. The secret to the success behind this wool is Hamanaka's unique blend of various acrylic fibers, and the company's unwavering commitment to quality. No effort is spared in Hamanaka's reliable Aclaine production system at Hamanaka's Hobbile factory, where its greatest technological achievements are brought to life.

Hamanaka Hobbile Co., Ltd. (Miyazaki)

Hamanaka's High-Quality Wool Proudly made in Japan

Hamanaka is dedicated fully to maintaining a constant high quality for its wool. That is why all our wool is processed in Japan.

1. Carefully selected high-quality wool for better handling and a more refined finish. All wool products are ethically sourced from non-mulesed flocks of sheep.
2. A gorgeous array of colors to choose from.
3. All of Hamanaka's wool is made in Japan to ensure only the highest quality.
4. Extensive wool cultivation knowledge garnered over years of making yarns and materials for various uses.

Did you know that there are thousands of types of wool?

Each type has a unique color and texture, and each must be handled differently. With such a wide variety of wools to work with, Hamanaka has spent the last 50 years working with wool through its yarns.

The various skills and experience cultivated through this familiarity comprise the very core of Hamanaka's greatest treasures. Hamanaka's own felt wool was developed directly as a result of those skills and experience.

Mirii Kirino—super-realistic felting artist

Realistic animals made of felt wool

Realistic animals made of felt wool.

Introducing kits for realistic animal creations with distinct expressions from popular artist Mirii Kirino. Kits include easy-to-understand, multi-angle full-sized color photos.

Multi-angle full-sized color photos included

Profile Mirii Kirino

Mirii Kirino became fascinated with Hamanaka wool in the early 2000s following a career as an illustrator and lecturer. Mirii dedicated herself to researching and developing her unique realistic style, eventually offering her creations to purchase. She began teaching about felting techniques at design vocational schools and managed classrooms in 2003. In addition to establishing the Mirii Japan Realistic Needle Felting Association, Mirii has created realistic dogs and cats that have appeared in numerous TV commercials, television programs, and other media.

- Minister of Education, Culture, Sports, Science and Technology Award
 - Member of the Royal Society of British Artists
