Longtime favorite
[ECO ANDARIA]
ANDARIA was launched in 1959 and renewed as "ECO ANDARIA" in 2008. Now they are suitable for spring/summer that have been well loved since their launch of over 50 years.

The ECO ANDARIA series use recycled wooden materials. They are environmentally friendly materials that, when burnt, are absorbed into the ground while generating very little hazardous materials.

Hamanaka ECO CRAFT...

- Is made from recycle paper such as grain storage bags and milk box paper.
 - Uses no agricultural or fertilizer bags.
 - Uses polyvinyl alcohol polymer for surface coating, this is same product as used for the back of stamps or in skincare products such as face packs.
 - Better flexibility than bamboo or wisteria materials, makes for easier cutting, splitting, or bonding.
 - Ecologically friendly material, better for people and the environment.
- *There are two types of colored materials: 5 m and 30 m balls (with color number).
*The photos are actual size. The color may not appear exactly as in the images due to printing process.

Crochet Hook Size Conversion Chart

The standard thicknesses (sizes) of crochet hooks are different for the Japan (JP), US, and UK regions.

Please also note that the notations for each crochet hook size are also different.

First determine the size in millimeters (mm) for the hook specified, then choose the closest hook size that is most comfortable to use.

	JP	US	UK
