**NEXT Standard**

**[AMERRY]**

Excellent yarns for hand knitting with a wonderful feel as well as being very hard wearing and having excellent heat retention. Made by blending heavier acrylic yarns with soft and strong New Zealand Merino wool.

◀ Note ▶

Sonomono uses natural colored wool, which may cause different colors in batches with the same color number, depending on the production date. We recommend purchasing enough yarn in one batch to complete the garment.

colored numbers indicate new products or colors in 2020.

Able to wash without detergent!  
Hamanaka Bonny Series  
**Bonny Scourer**

- Just rub dishes with scrubber and hot or cold water. All oil, tea stains and grime remove easily leaving nothing but shine!
- Also completely removes hard water scales in your bathroom!
- Prevents rough hands by eliminating the use of detergents.
- Its soft texture does not damage your precious dishes!

**Why is dirt removed?**

- **Micro-lines in fiber wipe off dirt!**  
The Hamanaka Bonny series uses acrylic monofilaments, which have microscopic micro-lines (streaks) and grooves along the surface when seen with a microscope. These ridges and grooves in micrometers (1/1000 millimeters) scrape off dirt, resulting an excellent washing without detergent.

- **Soft elastic characteristics help remove dirt!**  
The Hamanaka Bonny series consists of comparably thick acrylic fibers, which adds elasticity to the yarns. Due to its softness and elasticity, together with its tension and resilience, the product perfectly fit on the surface of washed tableware, thereby exerting an excellent wiping-off performance.

- **Breathability and water permeability help remove dirt!**  
The Hamanaka Bonny series consists of multiple types of acrylic monofilaments having different thicknesses and natures, including conjugated fiber, bulky fiber, and regular fiber, bringing bulkiness to the yarns. This creates a lot of space between the fibers for excellent water penetration and quick removal of dirt from the fabric. It also has an excellent breathability, so it dries quickly.

## Crochet Hook Size Conversion Chart

The standard thicknesses (sizes) of crochet hooks are different for the Japan (JP), US, and UK regions.

Please also note that the notations for each crochet hook size are also different.

First determine the size in millimeters (mm) for the hook specified, then choose the closest hook size that is most comfortable to use.

	JP	US	UK
2.00 mm	2/0	—	14
2.25 mm	—	B/1	13
2.30 mm	3/0	—	—
2.50 mm	4/0	—	12
2.75 mm	—	C/2	—
3.00 mm	5/0	—	11
3.25 mm	—	D/3	10
3.50 mm	6/0	E/4	9
3.75 mm	—	F/5	—
4.00 mm	7/0	G/6	8
4.25 mm	—	—	—
4.50 mm	7.5/0	7	7
