Spray-printing process starts from single nozzle open and gradually add another color nozzles. After 8 nozzles get fully opened, then close them one by one and turn to the beginning. By repeating this process, color spots appear on the fabric with different density like gradation. Symmetry, repetition and rotation are important facts for aesthetic sense of the Arab world and the repeating pattern for the product presents that idea. Colors are picked from Arab architecture/crafts

※Due to the nature of the material, its color may bleed out by washing / rubbing. Please avoid to wash / to ware together with white / pale colors.

※With its characteristic effect of spray-printing; color positions, density and pattern may always not be the same. Also base color of yarn would be different depends on the original color of the wool. So we would recommend to order the required amount in the same lot

Alf Laylah wa Laylah ~The heroines from “Arabian Nights’ Entertainments”~

Alf Laylah wa Laylah / Arabian Nights’ Entertainments is told by a wise and beautiful woman named Sheherazade. Once upon a time, at Persia, there was a king who was obsessed with a deep grudge against his wife who cheated on him. He kept calling innocent girls to the palace then executed them after having one night affair. Sheherazade went to the king, and told him mysterious stories over a thousand nights. She managed to release the king from the obsession and became the princess.

Nowadays the Arab and Islamic world is quite unfamiliar for us, we rather think of connecting negative impressions like terrorism, conflict and human rights violations against women with it.

However, they have the history over a thousand years and the Medieval Islamic world was highly civilized with its mature culture and even was ahead of Europe.

RichMore 2022 A/W is inspired by those fascinating heroines from the fantastic stories told by Sheherazade.
