Hamanaka's Unique Aclaine Needle Felting Material

Hamanaka's Aclaine is produced in-house using special acrylic fiber and extensive experience gathered from years of yarn-making.

1. High-quality, proprietary acrylic fiber designed specifically for needle felting.
2. Extremely fast felting – halves the felting time required.*Varies by person.
3. Incredibly cohesive and leaves a beautifully smooth surface.
4. Attractive colors borne out of our superior coloring process, only possible with acrylics.

Aclaine—ideal for those just beginning with needle felting

Fast

Aclaine is often referred to as a material that felts together easily and is easy to work with. Even beginners have no problems with Aclaine, ensuring a stress-free experience.

Simple

The fast felting nature of Aclaine, requires very little effort, making Aclaine perfect for children and the elderly.

Unique eco-scrubbers

Green

The microscopic grooves on the surface of the fibers make it possible to clean without detergents.

Unique squishy softness

Fun

The texture of the fibers allows users to make creations with a uniquely soft elasticity.

Did you know that Hamanaka and acrylic have a storied history?

Hamanaka Bonny wool—made of 100% acrylic—has been a best-seller for its high quality since 1963. The secret to the success behind this wool is Hamanaka's unique blend of various acrylic fibers, and the company's unwavering commitment to quality. No effort is spared in Hamanaka's reliable Aclaine production system at Hamanaka's Hobbile factory, where its greatest technological achievements are brought to life.

Hamanaka Hobbile Co., Ltd. (Miyazaki)

Hamanaka's High-Quality Wool Proudly made in Japan

Hamanaka is dedicated fully to maintaining a constant high quality for its wool. That is why all our wool is processed in Japan.

1. Carefully selected high-quality wool for better handling and a more refined finish. All wool products are ethically sourced from non-mulesed flocks of sheep.
2. A gorgeous array of colors to choose from.
3. All of Hamanaka's wool is made in Japan to ensure only the highest quality.
4. Extensive wool cultivation knowledge garnered over years of making yarns and materials for various uses.

Did you know that there are thousands of types of wool?

Each type has a unique color and texture, and each must be handled differently. With such a wide variety of wools to work with, Hamanaka has spent the last 50 years working with wool through its yarns.

The various skills and experience cultivated through this familiarity comprise the very core of Hamanaka's greatest treasures. Hamanaka's own felt wool was developed directly as a result of those skills and experience.

With a realistic coat and unbelievably cute eyes, you won't be able to help but want to snuggle these cute creations!

Design Yukiko Omura

Point 1 Realistic curls with bristled ends to prevent fibres tangling and excellent workability for a refined finish texture. (Comparison with conventional Hamanaka products)

Point 2 Learn how to make realistic creations, starting with the basics.

Lesson Kit

Book + Ingredients

Includes book and materials needed for a quick start.

Three-part lesson book with each volume focusing on just one project.

Estimated time required **Level 4** 18 hours

Lesson Kit

Lessons cover creating the core body shape and applying the realistic curly fur finish

Enjoy creating truly realistic animals

Kit contents

*Image for illustrative purposes only.

Level 4
 Product No. **H441-441**
 Product Name **Lesson Kit — Toy Poodle**
 Price 1 pack **¥3,200** (Excl. tax)
 Shipment Units **1 4977444-943360**
 ●Size: About 18.5 cm tall

*The Real Felt Wool series is designed for those experienced in making wool mascots. Those who are new to felting wool are recommended to begin with a mascot kit (P. 22, etc.) or similar kit for beginners.

Let's enjoy hand washing
with felted soap.
FELT SOAP KIT

Possible to
make delicate foam

As interior
fragrance

Rolling felt wool around soap and scrubbing with hot water
make it felted. With felting needle, stabbing design on soap to
finish with pretty felted soap.

※ Depending on shape and size of soap, finished size would be different.
